

QUOTATION

Shortlet Apartment Management Web Application

Date	21 Nov 2025
Prepared By	Adjeh Dominic Efeoghene
Email	dominicaadjeh@gmail.com
Phone	08158389029
Recipient	Sweet Homes Apartments

1. Summary

The Shortlet Connect application is near completion. Core functions already work: apartments can be added and managed, bookings are tracked automatically, and image handling will be upgraded. This quotation covers final polishing, deployment readiness and handover.

2. Core Features Working

Apartments: create / edit / archive	Management: pricing, status, availability
Automatic booking tracking	Admin dashboard basics
Initial image handling (upgrade planned)	User/session handling (to refine)

3. Finalization Scope

Item	Description
Image Storage Upgrade	Integrate reliable cloud storage; optimize uploads; secure access (signed URLs).
Booking Refinements	Prevent conflicts; validate edge cases (overlaps, cancellations).
Performance & UX	Improve responsiveness, accessibility and polish key flows.
Security Hardening	Strengthen authentication, permissions and data validation.
Deployment & Handover	Production build, environment setup, one training walkthrough (up to 2 hours).
Documentation	Setup guide, runbook, feature index, quick reference.

4. Deliverables

- Production-ready codebase
- Cloud image storage integration
- Security & validation improvements
- Deployment + environment documentation
- Training / handover session
- 14-day post-handover bug fix grace

5. Timeline (Estimated)

Phase	Summary
Week 1	Audit & start image storage integration
Week 2	Finish image storage; booking & security fixes
Week 3	UX/accessibility polish; documentation drafting
Week 4	Final QA; deployment; training session
Total	Approx. 3–4 weeks (feedback dependent)

6. Pricing (Fixed One-Time)

Item	Details
Total Fee	₦1,500,000 (one-time)
Includes	Scope items, training session, 14-day bug fix grace.
Excludes	Future new features, third-party service costs (e.g., hosting/domain renewals, premium services), ongoing maintenance beyond grace.

6.1 Cost Breakdown (How the Total Adds Up)

Item	Description	Cost (₦)
Finalization & Feature Completion	Wrap up pending work, stabilize core flows (apartments, bookings), resolve edge cases and regressions.	550,000
Image Storage Integration	Configure Firebase Storage, secure upload pipeline, responsive image handling, access rules & testing.	200,000
Security Hardening & Validation	Strengthen auth/session flows, role/permission checks, server/client validation alignment.	150,000
Performance & UX Polish	Optimize perceived performance, accessibility pass, simplify key interactions, minor UI refinements.	150,000
Documentation & Handover	Setup guide, runbook, feature index; 1 training/walkthrough session (up to 2 hours).	100,000
Deployment & Environment Setup	Production build optimization, environment configuration, release checklist, basic monitoring hooks.	100,000
Hosting & Domain Procurement + Setup (Service)	I will handle the domain purchase and hosting onboarding (DNS, SSL, redirects). Third-party charges for the domain/hosting are billed at actual cost to Sweet Homes; this line covers my procurement and setup service.	100,000
Project Management, QA & Contingency	Structured testing, issue triage, buffer for minor scope clarifications without change requests.	150,000
Total		1,500,000

6.2 Payment Terms

Milestone	Amount
On Acceptance	60% — ₦900,000
On Final Delivery & Handover	40% — ₦600,000

7. Assumptions

- Backend endpoints are stable (only minor tweaks).
- Feedback returned within 24–48 hours.
- Client provides hosting/cloud accounts & image service keys.
- No major architecture rewrites needed.

8. Acceptance

To proceed: approve this quotation, confirm payment schedule, and provide required access (repository, staging environment, keys). Valid for 15 days from the date above.

Remark: My goal is to ensure Sweet Homes Apartments has a reliable, secure, and easy-to-use platform that supports your day-to-day operations and growth. I appreciate the opportunity to partner with you on this phase and look forward to building a long-term working relationship, iterating together as your needs evolve.
